## **Preface**

The major purpose of each master of computer application student is to gain as much of practical and industrial knowledge as possible. Being able to have a practical understanding by work with the project and project team is a lifetime experience. I am grateful for having a project, since practical knowledge is vital as theoretical knowledge.

I have gained a great deal of experience in the development of several strategies which may be used in the project development. The steps for our carrier are this project.

I am pleased to introduce this initiative. Proper attention was paid during the development of the project to understand. Also, various software engineering & web development concepts have been implemented.

## **ACKNOWLEDGEMENT**

This project is not possible without the exceptional support of our guide, **Prof. Vivek Dave** (Head of Department) his passion, knowledge and exacting attention to detail have been stimulation and kept our work on track and also endures to complete the final draft of this project.

I would also like to special thanks to **Dr. Priya Swaminarayan (Dean)** and all My faculty member and staff, who encouraged me during this project Then, I would also like to thank my friends who helped me to accomplished this project and give motivation to invoked on track to finalize this project.

Last but not the least, I would like to thanks My parents to believe in us.

Thanking you....

Your sincerely...

Kiran Ramchandani [210511214029]
